

Load Out Instructions

Please note no displays can be torn down or removed prior to 4 p.m., July 23, 2009.

During the load out process all traffic must enter through the main East entrance and exist through the West entrance onto Crescent Road.

Equipment that needs to be moved to lot 89 and should not be transported on the road can exit out the Northeast Entrance to the exhibitor lot. Large equipment unable to travel on the road may exit through the main entrance after all incoming traffic has cleared. These special exits are denoted by green squares.

Semi and Trailer Load Out Information

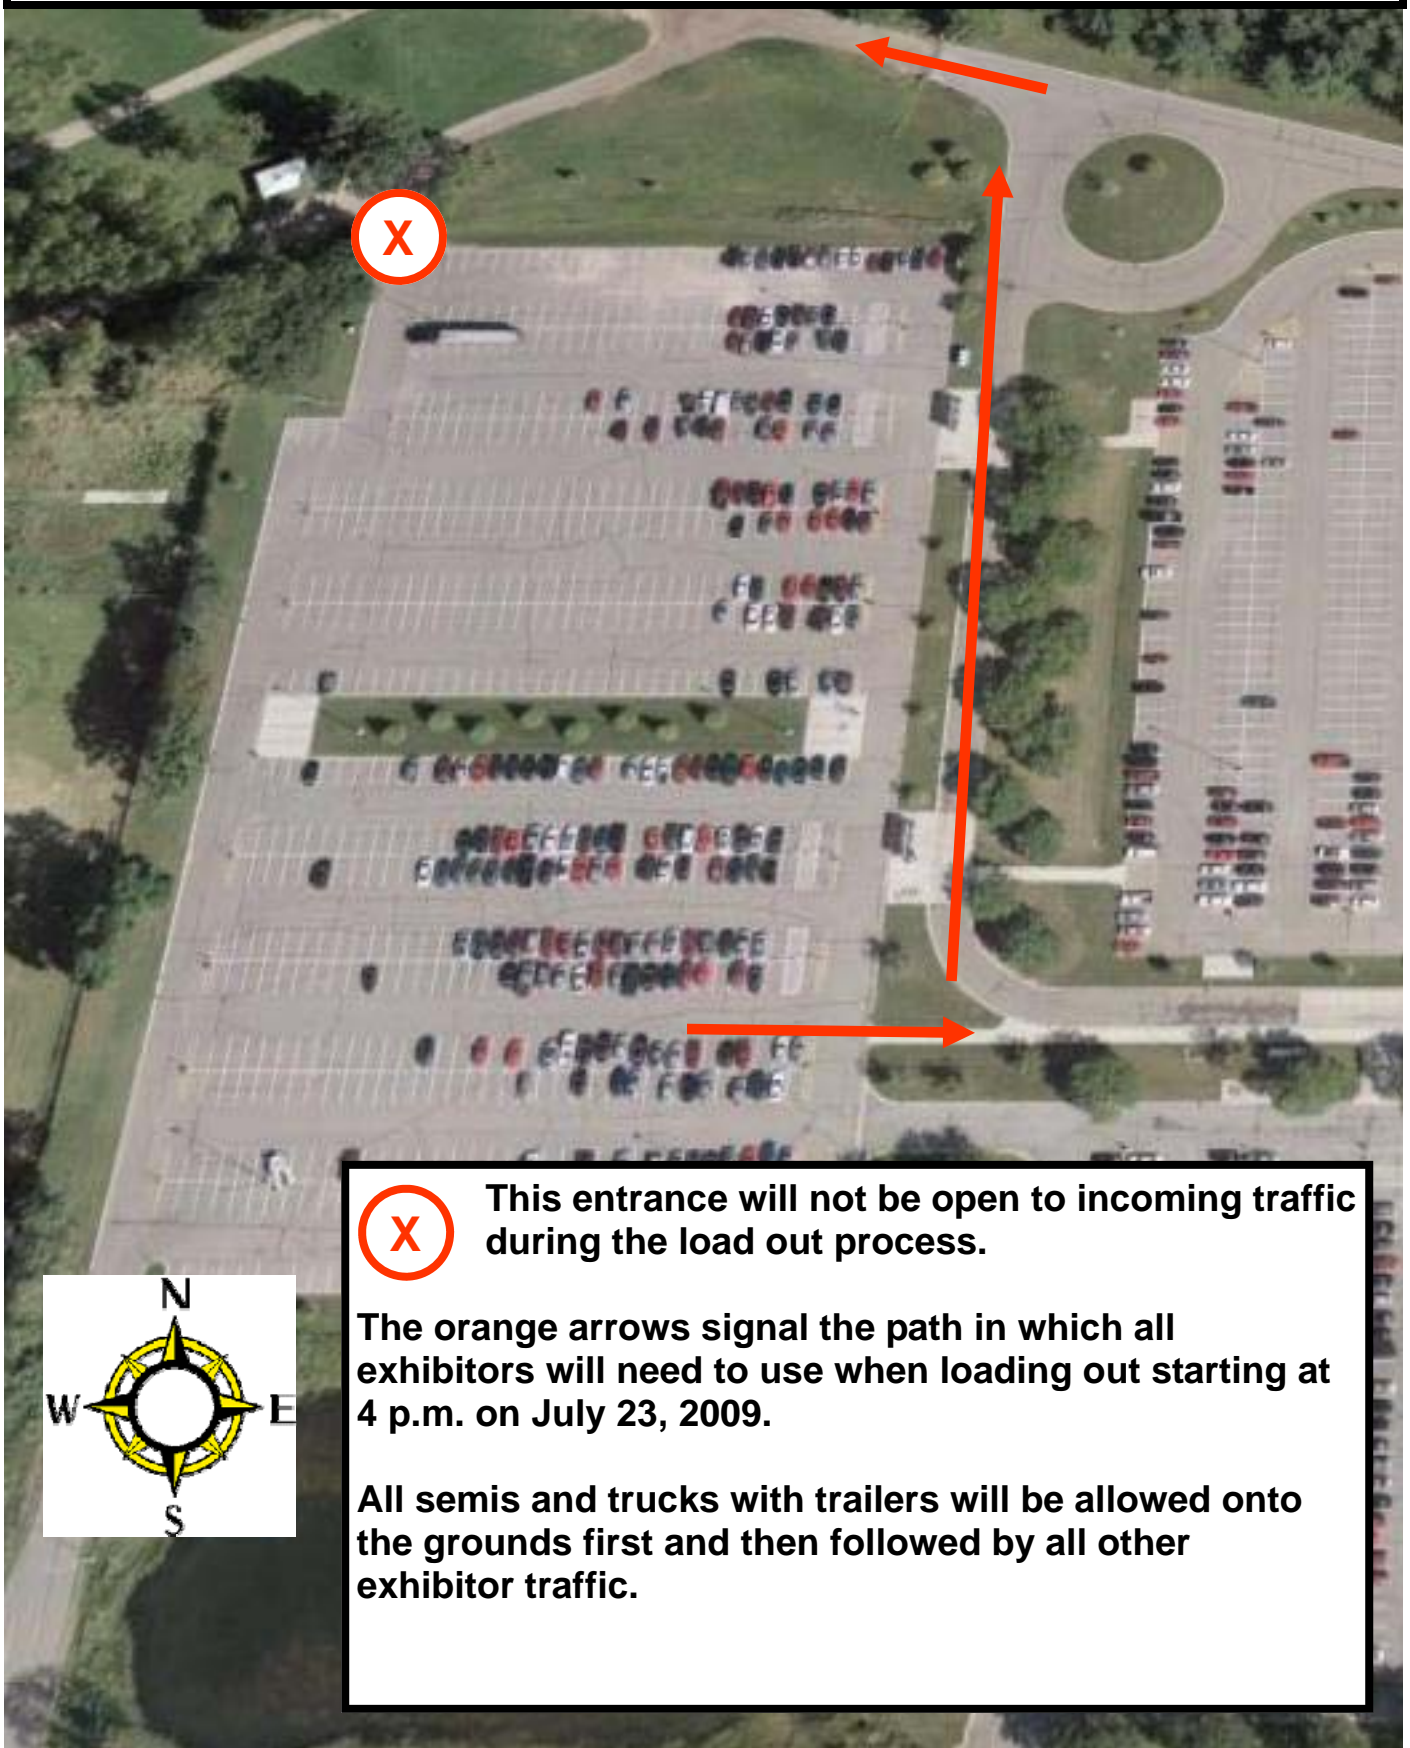

The star represents the parking lot to be used for semis and trailers. Please park in the roped lanes working from East to West with all vehicles facing North.

The orange arrows signal the path in which semis and trailers will need to use when loading out starting at 4 p.m. on July 23, 2009.

All truck drivers are asked to report to their vehicles by 3:15 p.m. on July 23, 2009.

All other exhibitors must follow the marked path for entrance onto the grounds during load out on July 23, 2009.

(X) This entrance will not be open to incoming traffic during the load out process.

The orange arrows signal the path in which all exhibitors will need to use when loading out starting at 4 p.m. on July 23, 2009.

All semis and trucks with trailers will be allowed onto the grounds first and then followed by all other exhibitor traffic.
